Organized by

Power Electronics Research Centre
The Hong Kong Polytechnic University

The first International Symposium on Electrical Engineering will be held in December 2016 in Hong Kong. This one-day symposium focuses on the recent research and the industrial projects of electrical engineering with stress on power electronics, renewable energy, power system, electric vehicles, machines, control and related technology.

The symposium aims to be a key international forum for the exchange and dissemination of technical information on electrical engineering among academics and practicing engineers in the field.

The coming symposium consists mainly the oral presentations. We encourage research personnel to participate in this Symposium to present their recent work and to train themselves to become a professional.

The symposium aims to be organised every 2 years to provide an opportunity for researchers or engineers to present in between the bi-annual international conference PESA organised by our Research Centre.

Selected papers will be published in the open-access Asian Power Electronics Journal.

Topics of interest (not limited to):

- Aerospace power electronics
- Control for power electronics
- Electric machine
- Electric mobility
- EMC and power quality
- Environmental protection and alternative energy
- High power conversion
- High speed rail and transportation system
- Inverters
- Lighting
- Magnetics, capacitors and energy storage
- Medical power electronics
- Motion control and mechatronics
- New materials and devices
- Power converter
- Robot
- Smart Grid
- System integration for power electronics
- Thermal management and packaging

Strict Deadlines:

Submission of Full Papers	21 November 2016
Notification of Acceptance	1 December 2016
Submission of Revised Full Papers	7 December 2016

Full Paper Submission:

Paper format is similar to PESA International conference. The information about the full paper submission, including the paper format, can be found at the following website <http://perc.polyu.edu.hk/>. The full paper could also be sent by email to:

Secretary of ISEE 2016, Department of Electrical Engineering, The Hong Kong Polytechnic University, Hung Hom, Hong Kong. email: eeisee16@polyu.edu.hk or OC Chair eecheng@polyu.edu.hk, or Tech Chair ewnfu@polyu.edu.hk
